

# IBA.iQ

## Access the insight and data you need to maximise aviation investments

IBA.iQ is an online analysis platform offering essential market intelligence for the global aviation leasing, operating, finance and MRO community.

- ▶ Our extensive fleet, values and market data, combined with IBA's expertise and opinion gives greater confidence and assurance for investments, evaluating risk or monitoring aircraft portfolio valuations.
- ▶ Incorporating commercial aircraft data stretching back over 30 years, our comprehensive fleet analysis platform holds all you need to know about commercial aircraft.
- ▶ Gain greater transparency by charting historical economic parameters to illustrate relationships with values, lease rates and lease rate factors, which means that you have maximum clarity on likely market direction.
- ▶ Build and update your own portfolios and make expert decisions with access to our intuitive appraisal platform, covering current, historical and forecast values and lease rates.
